List of articles	iv
Acknowledgment	v
Abstract	ix
1 Introduction	1
1.1 Historical background	1
1.2 Standard Model	2
1.2.1 Beyond Standard Model	5
1.2.2 Neutrino in SM and beyond	7
1.3 Neutrino oscillation	10
1.3.1 Brief history of neutrino oscillation	10
1.3.2 Neutrino oscillation in vacuum	11
1.3.3 Neutrino oscillation in matter	14
1.3.4 Neutrino oscillation experiments	15
1.4 Overview of the thesis	16
2 New physics effects in the neutrino sector	18
2.1 Non-standard interaction	18
2.2 Ultra high energy neutrino	21
2.2.1 Introduction to large extra dimensions	24
2.2.2 Microscopic black hole	25
3 Basics of quantum correlation	29
3.1 Quantum correlations	29
3.2 Measures of quantum correlation	31
3.2.1 Temporal correlation	33
3.3 Quantum correlation in neutrino	33
4 Effect of NSI on temporal and spatial correlations in neutrino oscillation	36
4.1 Measures of quantum correlations	37
4.2 Effect of NSI on the quantum correlation measures	38
5 NSI effect on the microscopic black hole events from UHE neutrino	44
5.1 Cross section of neutrino nucleon interaction	45
5.2 Types of events generated	46
5.3 NSI effects on the number of event	48
6 Conclusions	51
6.1 Other works done	52
